**About DivinaECO Pack**  
Hygienically Refreshing

## Who we are:

DivinaECO is India owned and operated distinctive part of the Himalaya Tank Group (Om Shanti Group). We provide wide range of eco friendly packaging solutions which are strictly designed and developed in healthy and natural conditions with the latest industry needs and standards.

Innovation is at the core of our business. DivinaECO packaging is designed by our in-house RnD team in in-house laboratory and is made completely from eco-friendly paperboard resources.

Our unique state of art manufacturing unit is located in Maharashtra region in India and all our packaging is 100% locally designed and produced. Our eco friendly packaging is ideal for all the catering services, restaurants, delis, cafes, takeaways, Tea Chains, specialty coffee shops!

## OUR VISION:

After reaching the major milestone of setting up benchmark of leading company in India, our next big challenge is to be able to shape the food serving packaging mentality on a global basis with our first class products.

## OUR MISSION:

Make world environment friendly with ecofriendly packaging.

## OUR CORE VALUES:

Trust : Most reliable to our commitments  
Quality : Manufacture high end food packaging  
Passion : Love what we do  
Diversity : Provide a wide range of variety  
Innovation: Never stop evolving

# WHY US

## Experience and Reliability

We are a group and brand with experience and reliability of more than 2.5+ decades in the field of manufacturing

### GLOBAL PRESENCE

We export to more than 3+ continents of worldwide

### GREEN WORLD

We keep with our commitments towards environment

### ECO MINDED

We promote use of packaging aimed to help preserve the environment and make world more greener

### BIODEGRADABLE

Most of our packaging is capable of return to nature in reasonably short period of time

### ENLIGHTENED SUPPLY CHAIN

Warehouses and representatives in India and worldwide, we assure minimal delivery cost and turnaround

### 100% RECYCLABLE

All our paperboard packaging can be easily reprocessed and reused to help limit waste
